

The London – New Build

Welcome to
The Royal London

Over 5000 rooms in total
to handover.

Britain's biggest new hospital, supporting its position as one of the UK's leading trauma and emergency care centres and home to London's air ambulance service; offering one of Europe's largest renal departments; and housing the capital's second biggest paediatric service, provided within a dedicated Women and Children's unit.

13 Buildings Demolished

Phase One

- 142,300 Sq M of new space, providing 905 beds across three towers (two 17-storey, one 10-storey)
